YOUR BUSINESS

- ✓ We started in 2007 with a very precise idea: to offer high quality services to operators interested in the online gaming business.
- ✓ We began to operate for the Italian market, we grew rapidly and now we have secured an important role in the European market as well as that in South America.
- ✓ Today, a few years on, we operate in markets whereby every day thousands of people have the possibility to enjoy playing poker, betting or trying their luck with our casino games; offering also exclusive live games.
- ✓ Over the time, our Group has been enriched with important Partners that have made it possible to enhance our service offering as well as revolutionise this ever changing sector.
- ✓ Today we are proud to have achieved our dream: to have built a multidisciplinary platform of games, that offers a unique and complete experience to the market.
- ✓ With a consolidated structure and the experience acquired, our Group prides itself with a presence on more international markets and important collaborations on other fronts.
- ✓ A clear indication of our growth is the presence of our network, starting from April on the information portal "PokerScout" (main mechanism and guide that constantly monitors the influx of users in the different games network).
- ✓ For further information please visit:
www.enetpoker.com (our network)
www.enetpoker.com/pancenter (our promotions)
- ✓ We will certainly not stop here. Our next objective, in the medium term will be that of creating an important leading role in Central America, Asia and East Europe.
